### **The Language Lab Named to Nation's Top Business List for 2010**

New York, NY, 02/23/10. In recognition of the economic power of privately held businesses, DiversityBusiness.com, the nation's leading business-to-business internet site, recently named The Language Lab as one of the top businesses in the United States.

This is the 10th annual national listing of top businesses by DiversityBusiness.com. Companies listed on the Top Business List represent the Nation's top multicultural and diversity owned earners and challenge the long-held notion that a privately held business is small or insignificant. Winners are sought after by major corporations wishing to increase spending with small businesses.

### **The List**

This List is a classification that represents the top small businesses in the U.S., in sectors such as technology, manufacturing, food service and professional services. Large organizational buyers throughout the country that do business with multicultural, small and women-owned businesses use the list. The List is produced annually by DiversityBusiness.com, the nation's leading multicultural B2B Internet portal that links large organizational buyers to multicultural product and service suppliers.

### **About The Language Lab**

The Language Lab was founded in 1972 in New York City. Its purpose was to provide language training and translation services to government agencies and private businesses. Under the umbrella of Translingua Associates, Inc., The Language Lab has expanded in size and reach over the past 10 years. In 2000 the company's founders retired and handed it over to its young, dynamic project management team. In 2005 The Language Lab broadened its client base through the acquisition of Translation Company of America (TCA). In 2006 The Language Lab became the official translation partner of the French Institute *Alliance Francaise* (fiaf) in New York. Finally, in 2008, the company extended its geographical reach by joining forces with Language Matters in Boulder, Colorado. This growth has allowed The Language Lab to modernize its tools and streamline its processes and, as a result, offer a more extensive range of foreign language services in the U.S and abroad.
